THE CITY.

It is our sad duty to chronicle the death by suicide of Mr. Samuel A. Foot, the son of Hon. John A. Foot, and the business had not been seen at his place of business, nor at the Angier, where he boarded, since Tuesday. On Wednesday the chambermaid found his watch, pocket book, &c., upon the table in his room, but supposed he had left them by accident. His absence was not particularly noticed until yesterday, his friends in town supposing he was at the resdence of his father. Yesterday afternoon father, accompanied by Sheriff Craw and Mr. Taylor, went to his room, and upon the table found a note, signed by Mr. Foot, saying that his body would be found in the

river opposite the warehouse. Search was immediately made for it, and at 6 o'clock it was found. Mr. Foot was about 30 years of age. He was universally respected and esteemed as a usiness man and a citizen. No cause can be assigned for the deed. He had been alightly unwell for a few days, but his friends were by no means alarmed at this indisposition. He was proverbially cheerful, but had been apparently much depressed for a few days. He had no family, but his death will be sadly mourned by a large circle of

We have seen many of the relics of the days that tried men's souls, among them the old chair in which John Hancock sat at the signing of the Declaration of Independence, and some of us have had the honor of occupying that time honored chair. A little incident occurred at Camp Curtin during the raising of the American flag to must-head, at their quarters, yesterday. A large eagle was observed, high in the sir, approaching from the southward.
